North Las Vegas, Nev. 89036-0307

Dear Ms. Dixon:

1 I live in a near suburb to St. Louis, Missouri. I am frightened that nuclear  
2 waste could pass on the railroad line less than one-half mile from my  
3 home. There are no safe storage options for nuclear waste, so why are  
taking the incredible risk of transporting it across the country? We have  
no local emergency service that could respond adequately in event of  
accident, sabotage or terrorism. And think of the ghost towns that would  
be created in the event of a catastrophe.

4 Please stop this foolhardy and dangerous plan

Sincerely,

  
Joann E. Noll
